

Learning and Fun...Rolled into One!

Did you know?

When a baby touches, smells and tastes, she's learning.

A toddler stacking blocks or splashing water is learning.

Playing make-believe is how a preschooler learns about the grown-up world.

School-age kids learn and practice math, reading and other skills while they play.

All these things and more are happening at the Children's Museum of La Crosse!

I/we want to help the Children's Museum of La Crosse in its mission of offering affordable, hands-on learning and fun for our region's children and families.

I would like to contribute:

\$ _____ per year for _____ years (*First installment of \$ _____ is enclosed; please invoice future years in the month of _____*)
